Flexitanks - MADE IN GERMANY

- Top hose connection if required
- Pressure relief valve

- Multi-Layer-Design, four films on top of each other à 125µm
- Multiple welded and reinforced at the most debited places
- Woven fabric reinforced outer shell
- Special high oxygen barrier possible

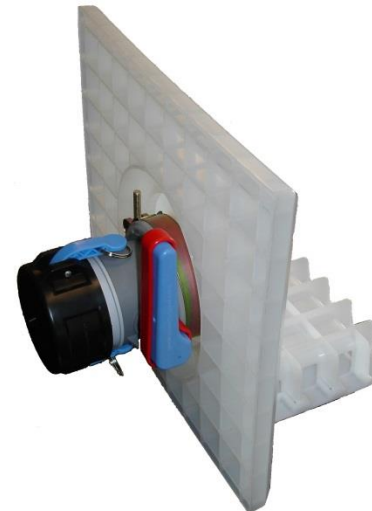

- Patent protected high security bulkhead

- Butterfly bottom valve 3" BSP female / 2" or 3" camlock male adapter

The perfect fit distinguishes Büscherhoff from competitors:

- All attachment parts for our Flexitanks are made in-house by our own moulding machines
- No deviations in tolerance values
- Individual solutions for our customers

For which products Büscherhoff`s Flexitank is suitable:

Our Flexitanks allow you to transport the majority of non-hazardous liquids for both industrial and food grade uses:

- ❁ This includes technical and industrial oils, chemical additives, emulsions, glycerin, some paints, ink, liquid fertilizer, latex, transformer oils, mineral oils, and other petrochemical products.
- ❁ This includes but is not limited to edible and animal oils and fats, juice concentrates, syrups, water, wine, honey, food additives, fish sauce, soy sauce, and vinegar.

Why should you use Büscherhoff's Flexitanks:

- ❁ Safety, Quality and Production „Made in Germany“
- ❁ Aspiration to meet the demands of the customer – Individual solutions
- ❁ Full Service – Training on the product and After Sales Service
- ❁ Network knowledge – Everytime and everywhere
